ABOUT

I am a Computer Engineering graduate who enjoys building web applications end-to-end, from the interface to the services behind it, and integrating AI into real products. I completed internships at Jotform and Scove Systems. I am looking for a junior position in software development.

EDUCATION

Konya Technical University – B.Sc. Computer Engineering | September 2022 – June 2026

Google AI and Technology Academy – Scholar | December 2025 – September 2026

- Completed training and hands-on projects in machine learning, generative AI, and data processing.

EXPERIENCE

Frontend Developer Intern – Jotform, Ankara | August 2026 – September 2026

- Developed product interfaces with React and TypeScript, working from prototype to production code in a team with a backend developer and a UI designer.
- Adapted to enterprise-scale Git workflows (rebase, pull requests, code review) and weekly evaluation cycles.

Frontend Developer Intern – Scove Systems, Konya | July 2025 – August 2025

- Built data-driven interfaces and reusable components integrated with REST APIs using Next.js and Tailwind CSS; optimized render performance.

PROJECTS

EduConnect | Java 21 · Spring Boot 3 · Spring Cloud · React 19 · PostgreSQL · RabbitMQ — 2026 | [Backend](#) | [Frontend](#)

- Designed and built an education platform of 13 microservices and 174 REST endpoints end-to-end, from backend to UI; set up an API Gateway, Eureka, and Config Server.
- Implemented JWT authentication with 5-role RBAC, event-driven communication with RabbitMQ, a PostgreSQL + Flyway data layer, and Redis caching.
- Added a RAG-based recommendation system with Spring AI and Ollama; cut initial-load API calls by 42% in the React 19 interface with lazy loading.

Turkish RAG Chatbot | Python · FastAPI · React · TypeScript · GitHub Actions — 2026 | [GitHub](#)

- Built a RAG-based Turkish question-answering system and AI evaluation pipeline with a FastAPI backend and React interface; set up CI/CD on GitHub Actions.

Employee Atlas | Next.js 15 · Supabase (PostgreSQL, RLS) — 2026

- Built the natural-language search flow and RLS-based tenant isolation on the search team of a multi-tenant B2B SaaS workforce analytics platform.

Sevpar Akü Market | React · JavaScript · CSS3 — 2025 | [Site](#)

- Built a responsive, SEO-friendly corporate showcase site with React for a real client, featuring a product catalog of 8 battery brands.

SKILLS & CERTIFICATIONS

Languages: Java, Python, JavaScript, TypeScript, SQL, Swift

Backend: Spring Boot, Spring Cloud, Spring Security, Spring Data JPA, FastAPI, Node.js, Express.js

Frontend: React, Next.js, Redux Toolkit, Vue.js, Tailwind CSS

Data & Infra: PostgreSQL, MySQL, MongoDB, Redis, RabbitMQ, Docker, GitHub Actions, Git

AI: Machine learning, RAG, Spring AI, Ollama, Kaggle

Spoken: Turkish (native), English

Certifications: Deep Learning and Generative AI – Akbank, 2025 · Google Project Management Certificate – Coursera, 2026

VOLUNTEER

Campus Representative – Etkin Kampüs, Ankara | October 2025 – June 2026

- Represented Konya Technical University on campus, running event communication and coordination.
